ITALIAN LANDSCAPE DESIGN FROM ANCIENT ROME TO THE MODERN WORLD

**An illustrated talk by Sabatino Urzo
Tuesday April 6th 2021 at 7.30pm**

Throughout the world, the history, culture and lifestyle of Italy have been romanticised, dramatized and followed. It is a country famous for its breath-taking beauty and is a place where artisans created and shaped masterpieces that continue to influence the world. Sabatino will explore horticultural masterpieces of Italy's most sophisticated gardens and landscapes, where architecture and plantsmanship have always been in fashion. Richly illustrated with photographs taken during Sabatino's travelling and tour guiding, his presentation will be an enjoyable opportunity to taste Italy's most magnificent gardens and hidden gems.

Sabatino is an Italo-British horticulturist based in the United Kingdom. His passion for plants and gardens started at a very young age. After his studies he trained in horticulture at the Chelsea Physic Garden in London. He then worked for ten years at the Royal Horticultural Society's Garden at Wisley. Sabatino has led garden tours to Italy, taking British, American and Australian guests and visiting some of the finest gardens in the country. One of Sabatino's passions is to enjoy good food in good company.
